Professional Summary

Senior Mobile App Developer and Android Lead with 8+ years of experience building and maintaining high-traffic applications in banking, payments, and enterprise domains. Proven track record of directing cross-functional teams, orchestrating daily stand-ups, and managing project workflows through Jira to deliver scalable solutions. Expertise in Kotlin, Java, Jetpack Compose, MVVM, and Clean Architecture, driving end-to-end delivery, technical modernization, and cross-platform collaboration.

Technical Skills

- **Core Android & Languages:** Kotlin, Java, Android SDK, Jetpack Compose, Coroutines, RxJava
- **Architecture & Design:** MVVM, Clean Architecture, MVP, MVC, Dependency Injection (Dagger)
- **APIs & Networking:** Retrofit, RESTful APIs, GraphQL, WebSockets
- **Database & Cloud:** RoomDB, SQLite, Firebase, Google Cloud, AWS
- **Testing & CI/CD:** Espresso, JUnit, Mockito, Jenkins, Gradle, Git/GitHub, GitLab workflows
- **Security & Quality:** Encryption, OAuth2, JWT, Crashlytics, Performance Optimization
- **AI & Modern Workflows:** AI-assisted development (Cursor, ChatGPT, Codex), Auto ML, TensorFlow Lite

Professional Experience

Perennial Systems | Senior Android Developer & Team Lead

Dec 2024 - Present, Mumbai

- **GCash & Digital Tax Initiatives:** Spearheaded Android feature development for core financial services (GTourist, Digital Tax Refund, Request Payment), delivering scalable solutions utilizing Kotlin, Jetpack Compose, and MVVM for a fast-growing user base.
- **Architecture & Modernization:** Architected the migration of legacy payment modules from MVP to MVVM, effectively reducing technical debt by 30% and significantly improving testing capabilities and application scalability.
- **Team & Delivery Leadership:** Steered cross-domain coordination across backend, iOS, UI/UX, and QA teams, successfully delivering 100% of sprint milestones on time through structured agile planning and daily stand-up meetings.

Tata Consultancy Services | I.T. Analyst (Senior Android Developer)

May 2023 - Dec 2024, Mumbai

- **ICICI iMobile:** Directed Android feature development for the official mobile banking app encompassing 400+ services and serving over 50 million users, delivering highly responsive user interfaces.
- **Technical Innovation:** Engineered and built a reusable design library (DFF) and successfully published Maven packages, which streamlined UI development and reduced component integration time by 40%.
- **Team Handling:** Managed a pod of 3 developers, enforcing rigorous code quality and maintaining a 99.9% crash-free rate through strict GitLab branching strategies, pull request reviews, and continuous mentoring.

Capgemini India Ltd | Software Development Consultant

July 2021 - May 2023, Mumbai

- **EnterCard (re:member):** Led the Android developer pod for the credit card and financial management app, driving sprint execution and feature rollouts for an active user base of 500,000+.

- **Modernization Lead:** Drove a comprehensive architecture overhaul, spearheading the migration from Java to Kotlin and legacy patterns to MVVM, which improved app launch speeds by 20%.
- **Cross-Platform Delivery:** Implemented FigmaToken integrations for design-system consistency and successfully resolved 40+ critical technical debt issues during a rapid-response project support initiative for Ola Electric.

Proteus Technologies Pvt Ltd | Software Programmer

July 2019 - June 2021, Mumbai

- **End-to-End Ownership:** Operated as the sole Android developer to architect and build 3 enterprise applications entirely from scratch, delivering full-cycle features across Proteus Vision (CRM), Vision Sense (TensorFlow Lite), and Vision Moment.
- **Platform Stability:** Collaborated seamlessly with backend teams for API integration and leveraged Crashlytics to reduce application crash rates by over 50%, achieving a highly stable production environment.

Affalatus Creative Solution Ltd | Android Developer

March 2018 - July 2019, Mumbai

- Engineered and developed multiple client Android applications from scratch, gathering requirements directly from stakeholders and executing integrations for apps like Complete Wallet to support high-volume daily transactions.
- Migrated legacy applications to the latest Android SDK, ensuring 100% cross-device compatibility and resolving structural migration issues.

Keights India Technology | Android Developer

April 2017 - March 2018, Mumbai

- Developed the Y Chat social media application from scratch, building real-time core functionalities supporting thousands of concurrent users utilizing Java, XMPP Ejabberd, and the Twilio API.

Education

Mumbai University

2019 - June 2021

Master of Science in Information and Technology

Mumbai University

June 2014 - April 2017

Bachelor of Science in Information and Technology

Certifications

Coursera - Agile with Atlassian Jira (May 2022) | [Certificate Link](#)

Coursera - Agile Software Development (December 2021) | [Certificate Link](#)
